**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claim 85 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not disclose or make obvious the claimed term of "A computer readable medium" claim 85, line 1. The specification merely states that portable storage medium 2201 which is processed in a manufacturing processor 2202 to produce telephone 1 in which the processor 500 is provided with the necessary code in ROM or RAM (see page 46, lines 8-20 and page 49, 12-15). However, the specification fails to clearly define or provide support nearly added term "A computer readable medium". Thus "A computer readable medium" was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

***Allowable Subject Matter***

3. Claims 1, 3-9, 11-48, 50, 53-77, 79-82, 87 and 90 allowed.

Art Unit: 2617

4. The following is a statement of reasons for the indication of allowable subject matter:

5. Regarding claims 1, 48, and 87, the prior references in record, in view of Applicant Remarks/in the amendment filed 02-25-08 and other claim combination, fail to teach storing a mobile network service provider and a land line network service provider identifying preferred route codes in the look-up table of the mobile telephone to route a call as well as transmitting the selected preferred route code via a communication channel of the mobile network service provider and the land line network service provider to establish communication for the call. There is no suggestion in any of the references to combine with any other references to teach the limitation as claimed.

Since claims 3-9, 11-47, 50, 53-77, 79-82 and 90 are dependent claims, these claims are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
